13. OTHER FEATURES
- ADJOURNMENT

The meeting was called to order by the president, Geo. Ostiguy, and toasts were made to the Queen and the President of the United States of America.

The minutes of the January meeting were read and on a motion by E. Barber, seconded by G. Richards were carried unanimously. The president then called on Ed. Schoenherr for the treasurer's report. After the reading of the report, the treasurer then reminded the audience that a large number of the members were still delinquent in their 1954 dues and that it would be appreciated if they could be paid up as the chapter expenses must be met from these dues.

Bill Robinson, the chapter delegate, then gave his report on the Annual Meeting in Houston and also threw some bouquets in the direction of the city of Houston itself.

Ed Barber then introduced the speakers, Messrs. Wheeler and Pandy of the Ric-Wil Company.

Mr. Wheeler then gave a brief resumé of the Company which specializes mainly in pre-fabricated piping for both outside and underground piping. The Company maintains a complete engineering department for the making of shop drawings etc. as may be necessary for the complete installation. The Company will also supply erecting crews, if necessary.

Mr. Pandy illustrated with slides the various types of installations which have been erected and also the various types and combinations of piping assemblies they manufacture.

He also capably answered questions put to him by the interested

audience.

J. Klassen make a motion to adjourn the meeting which was seconded by Bill Penno~~ck~~ and carried unanimously.

Thirty Six members and guests attended the meeting which was very gratifying as unfortunately the meeting was held in the middle of the worst sleet and snow storm of the winter which virtually tied up traffic and many members had to shovel plenty of snow in order to attend the meeting.
