CONSTITUTION AND BYLAWS COMMITTEE REPORT

We now have the means to obtain a revised Chapter Constitution and Bylaws approved and in place for next year's operation. The proposed revised bylaws have been prepared, have gained Board of Governors approval (have been revised and concurred in by Jake Klassen, Chairman of Society Charter and Bylaws Committee) and now wait Chapter membership approval. This must be obtained no later than our Chapter April meeting in order to get our Regional Chairman's approval. Society Committee and finally Board of Directors approval at Albuquerque, in June 1978.

To avoid the cost to the Chapter of automatic reproduction and mailing to all members, as required in our existing bylaws, I have again recommended to the Chapter Board of Governors the following procedure:

1. The Secretary will provide a copy of the revised bylaws to any member who makes a written request.
2. Ten copies will be available for perusal at the March meeting.
3. That approval for this procedure be obtained by a 1/3 majority vote of the attending members at the March meeting.
4. That approval of the revised bylaw be obtained by a 2/3 majority vote of the attending members at the April meeting.

The revised bylaws will result in no changes to present Chapter operation. They will simply make the present operations legitimate. I therefore urge your approval.

Lorne Wilson

CURLING NEWS

ASHRAE OTTAWA VALLEY CHAPTER
1977 ASHRAE Research Fund Contributions

As we are about to launch the 1978 research fund campaign your Board of Governors thought it would be appropriate to recognize those who contributed to the 1977 campaign and who were thereby responsible for its success. The following list of contributors has been taken from the computer printout provided by the Society on a confidential basis to the Chapter Research Promotion Chairman. While we hope the list is inclusive there is always the possibility of error. If anyone has been omitted we will be glad to acknowledge them in the next issue of the Newsletter.

We hope that the list of contributors for 1978 will be even more extensive than this impressive one.
