M. Laurier Nichols, ing. 694-4141
M. Christian R. Roy, ing. 332-3730

REGION II CRC MEETING - HALIFAX, N.S. MAY 19-21, 1982

More about the upcoming Regional ASHRAE event. Like any other successful association there has to be a plan of action and this Chapter's Regional Committee meeting provides the opportunity of formulating such plans.

The delegates nominate members for:-
the Nominating Committee of ASHRAE NATIONAL
Regional Chairman - Region II
Vice Chairmen of Education, Membership, Research, and Energy Management.

Any chapter member who would be willing to accept the responsibility associated with any of these positions should let us know.

Anyone who can arrange to be on vacation during the week of May 17 to 22 and can find his or her way unassisted to Halifax would be more than welcome to the various events including a harbour tour and lobster feast. There will also be a program of interest to the ladies who may not find the various technical sessions to their liking. The technical sessions will cover Hydrogen Energy, Dalplex (an air support stainless steel structure) and Fundy Tidal Power.

More next month,
Dalton McIntyre Delegate,
John Lunde Alternate

CAN YOU HELP?

Our Education Committee needs copies of ASHRAE handbooks (years '76, '75, and '74). If you have any of these available, please call Keith Murfin (226-3300).
Thank you.

Investment in ASHRAE research serves our best interest, and if that rhetoric does not impress, be advised that your research chairman will be calling next week with pointed questions directed towards your success in this regard.

Ray Young
Research Chairman
