**Phileas Fogg, Metropolitan House, 99 Bank Street

PROGRAM - September 1987

TOPIC - "HOW MUCH COMMISSIONING IS ENOUGH?"

GUEST PANEL:

Mr. J.O. Ward - Director, Facilities Operations and Maintenance
Directorate - Public Works Canada

Mr. John Robertson - President, Robertson and Associates

Mr. George Carscallen - President, Goodkey, Weedmark & Assoc.

MODERATOR - Mr. Frank Vaculik, Public Works Canada

Is commissioning useful? Is it being done properly on any jobs? How much is needed?

► We are pleased that the above three exceptionally well qualified individuals have accepted the challenge to speak openly regarding this contentious issue. Every element of our industry is involved in some way and this is why our panel is composed of the three key players: Owner, Contractor and Consultant.

It should prove to be a very interesting and informative dialogue. Everyone is welcome.

CHAPTER REGISTRATION REMINDER

Welcome to our '87-'88 Chapter Year! In order to minimize the size of the lineup at our first Chapter meeting (and your delay while waiting in line), please send your completed blue Registration/Invoice forms for early processing prior to September 15, if possible.

PRESIDENT'S COMMENTS

It is a pleasure to welcome you back for this special year of ASHRAE activities.

Tremendous support from the Chapter has already resulted in our most successful Golf Tournament to date when 168 took part in the August event. Our thanks to all members responsible for organizing the golf day.

Success can easily be the product of combined efforts. Ensure it by supporting the Chapter Committees with your personal involvement.

June 1988 will be a special month due to the 1988 ASHRAE Annual Meeting. Ottawa will host this international event when members from around the world will gather here to attend a program filled with technical sessions, society business, forums and symposia presented by experts in the HVAC field. Support your chapter and plan to take part in the many exciting activities prepared for this season.
