PRESIDENT'S MESSAGE

The full attendance at the recent curling event demonstrates the kind of team spirit that makes ASHRAE work.

Further, this same kind of good will naturally extends onto the job site. It just stands to reason if you meet someone at a social event, a site meeting is going

to go smoother. You are both there to resolve problems as a team.

Do yourself and your company a favour -- become an **active** ASHRAE member.

C.R. Frauley

TECHNICAL SESSION

Two sessions will be presented this month, starting at 16:45 Hrs.

1. "HOW TO USE THE PSYCHROMETRIC" Chart, presentation based on the ASHRAE technical session materials, 16:45 to 17:30 Hrs. WE ARE BACK TO THE BASICS THIS MONTH.
2. "SUPER WINDOWS:" Micheal Glover of Edgetech I.G. will be speaking on "Super Windows & their Effect on the Design of Mechanical Systems". The session will focus on annual glazing energy loss/gain, R-values, shading coefficients & condensation on windows. The talk will begin at 17:30 Hrs.

TABLE TOP DISPLAY

Table Top Displays of products, services, equipment and systems present a good opportunity to raise the profile of your company's products and services to a broad audience of fellow Chapter-members and guests.

For information on future table top displays and space availability, call Ross McIntyre at 727-5111 for details.

NOMINATIONS

As Chairperson of the Nominating Committee I am very pleased to propose the following slate for Board of Governors 1992-93.

President	Neil Armstrong
Vice President	Ross McIntyre
Secretary	Pierre Degagne
Treasurer	Dave Eastwood
Past President	Chris Frauley
Governor	Gemma Kerr
Governor	Bob Kilpatrick
Governor	Keith Murfin
Governor	John Scott
Governor	Paul Seguin

In the event there are no nominations from the floor, the membership will be asked to endorse the proposed slate at our April Chapter Meeting.

Respectfully submitted,
Paul Baker

ASHRAE RESEARCH

The 1992 ASHRAE RESEARCH Campaign is now fully underway and required your support. When contacted by a chapter committee volunteer, please consider the following:

ASHRAE is supported because of visibility in the trade, it affects our livelihood, it has stated goals of producing a better environment and increasing the safety of public buildings.

ASHRAE Research addresses the following issues environment (CFC's), health (IAQ), energy management, and design standards.

Several things that are very special about ASHRAE Research are no administration costs (all contributions are directly spent on research and overhead costs are budgeted within Society's operation), careful selection process (low bid not necessarily selected), large pool of researchers available, ASHRAE is a very "working" society with no honorary titles.

We know our contributions to ASHRAE Research are really making a big difference when we see the results published annually in the Handbooks or Journal, standards are accepted by Code bodies - internationally.

ASHRAE CURLING BONSPIEL 1992

The Bonspiel winners were Ernie Moser's team from C&S Heating. Congratulations to E. Moser, G. Bourbonniere, J. Hurschler, W. Duncan.

The winners of the "Horse Trophy" were the team from SNC-Lavalin Engineers Inc. - Chris Frauley, Heather Spurr, Drew McDougall, and Barb Len. A special thank you to Gord Hayball for providing the "Horse Trophy", and a very special thank you to Stan Millross for this effort in organizing this highly successful event. All reports indicate that a great time was had by all twenty teams, and everyone is looking forward to next year!

PARKING

Alternative parking facilities are available at the World Trade Center, around the corner from our meeting location. Hourly rates are in effect till 5 p.m., free parking from 5 p.m. onwards. (This policy is subject to change).
